

## Broaden your Business Opportunities

The PRESENZA™ is a seamless combination of both form and function. This kiosk will bring visual impact to any situation.

## Attract More Users

PRESENZA kiosks retain the sleek exterior and small footprint common to other KING kiosk lines and can accommodate a comprehensive array of hardware accessories.

The PRESENZA's design is inviting to users and promotes your corporate image. A wide range of configurations provide several options to maximize your kiosk business opportunities.

Designed for 24x7 operation, PRESENZA kiosks are highly reliable and responsive to user interaction. We build our kiosks with high performance and reliable technology.

With PRESENZA kiosks and our top-notch customer service, your kiosk project is assured of success.

## Your Satisfaction

At KING, customer satisfaction is our highest priority. We provide all the required services throughout the lifecycle of your project.

Our Professional Services include: project management, training, custom hardware and software engineering, content development, costing and support.

KING is committed to providing complete robust solutions that meet your requirements.

We are focused on your kiosk business.
